-Question #6
Open the documents
"3Dprinter DETAILED file prep" and "3D printer cost estimator"

OPEN STL FILE

In room 306 open the "Catelyst EX" software installed on station 2. And follow the steps in "3D printer DETAILED file prep"

\$\$\$

Get a cost estimate by inputting the numbers generated into the "3D printer cost estimator"

SEND FILES

Put **BOTH** your original stl file(s) and the completed "3D printer cost estimator" into a folder with your name on it. Put the folder into the **3D printer dropbox**. Send me an e-mail that you have sent the file with the subject line "YOUR NAME, file sent for printing"

WAIT

It will take **at least a week** to get your print back. If your file has errors it will simply sent back for you to fix. You will receive an e-mail when your file is ready to pick up.
