

## Hardware Funding Bursary Application

COVID-19 has made the shift to online learning unavoidable. The University recognizes that this has placed an undue financial burden on some students, who require specific hardware (computers, tablets) in order to continue coursework in their program area. With this in mind, the university has created a fund to help students offset this unforeseen cost.

This fund is for students in 2-D and Experimental Animation, 3D Computer Animation, Industrial Design, Film + Screen Arts, and New Media + Sound Arts who need more advanced equipment or Tier 2 system requirements to continue their work. **Students must be taking a minimum of 9 credits in order to qualify.** Students in other program areas will be considered on a case by case basis if their practice requires more advanced hardware.

Students approved for funding from this fund will be notified within 10 business days. They will be advised of their pre-approval for the funding. Funds will be released after September 15<sup>th</sup> and upon presentation of the hardware purchase receipts. Maximum funding is \$300 for a tablet and \$600 for a computer.
