

## [Natural Sciences and Engineering Research \(NSERC\)](#)

### **Overview of NSERC grants available to Emily Carr Faculty**

All NSERC grants are institutional grants. This means that the applicant is the University and faculty leading the research will be the Project Leader. These grants involve industry partnerships. Faculty interested in learning more about these grants and applying are advised to contact the Research + Industry Office.

### **College and Community Innovation Program - Applied Research and Development Grants (CCI - ARD): ARD**

Grants support well-defined applied research and development projects undertaken by college researchers with their private sector partners. Direct project costs are shared by the company partner(s) and NSERC.

- Project duration: 1 to 3 years
- Deadlines: no deadline, ongoing intake
- Award amounts: between \$75,000 and \$150,000

**College and Community Innovation Program - Engage Grants:** University or college researchers can apply to launch a new research collaboration with an industrial partner through a short-term research and development (R&D) project that applies their expertise to address a company challenge. Partnering companies gain by having the expertise of the academics focused on their R&D issues and by discovering what the researchers and the students working with them have to offer. These projects serve as the first step to establishing a longer-term, impactful collaboration.

- Project duration: up to six months
- Deadlines: no deadline, ongoing intake
- Award amounts: up to \$25,000
